TRADING IRREGULAR

Dealers in Stocks Only Cleaning Up for Good Friday.

Indications of a Whisky Trust Deal Brewing-Indianapolis Grain Dull, Low and Not Wanted.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 2@51/2 per cent. Sterling exchange was easy, with actual business in bankers' bills at \$4.881/2 @4.881/2 for demand and at \$4.87@4.87% for sixty days; posted rates, \$4.88@4.89\\(\frac{1}{2}\); commercial bills, \$4.86@4.8614.

Silver certificates, 58%@59%c. Bar silver closed at 59%c per ounce; at London, 27%d. Sales of stocks were 148,700 shares. The share speculation was irregular and unsettled, and the volume of business extremely light. As a matter of fact, the trading was more strictly a matter of closing out contracts by professionals, who were not disposed to remain long or short of the market over the Good Friday holiday. Consequently, the market was without important feature. Between 11 o'clock and noon the dealings were irregular. There was a decline of 1 per cent. in Cordage and an advance of 1/2 in Pittsburg, C., C. & St. Louis. During the early part of the afternoon the market was strong, but under free sales prices took a downward turn, New Jersey Central breaking 21/4 and Chicago Gas 1/4. During the last fifteen minutes the trading was very irregular, and the market closed very unsettled, comparing with the closing sales of Wednesday. The shares which show improvement are Canada Southern, 114 and Pittsburg, C., C. & St. Louis, 114. The only stock which lost more than a fraction was New Jersey Central, the decline in which is 114. Sugar fluctuated with much ferquency, but kept within a limit of %, and made an advance of ¼ on the day. The grangers were among the most active group, but the changes were but slight. Distilling closed at Wednesday's final prices, 27¼, having in the meantime fluctuated between 271/2 and 26%. It was reported at the close of business that an agreement had been reached by the joint conference committee of the distilling and distributing companies, which was, however, to be submitted to the board of directors of both companies for consideration. Reading was weak on the announcement that the receiver had petitioned for leave to contract for a subway in Philadelphia, to cost \$6,000,000. The statement is made that 75 per cent. of the Erie second mortgages have been deposited under the directors' reorganization plan. The indications now are, in view of the decline in sterling bills, that no gold will be shipped to Europe by Saturday's steamers. The purchase in this market of American securities for the foreign account during the past few days has added largely to the volume of the bills in the market, and removes the profit in port operators. Shippers also await definite news as to the

facts of the seigniorage bill. The bond market was strong all day, the features being the strength and activity of the Texas Pacific and St. Louis & Southwestern issues. The leading changes on the day were: Advances-Illinois Central fours of 1953, 2%; Chesapeake & Ohio R. & A. division seconds, 2. Government bonds were firm. State bonds were dull. LOCAL GRAIN AND PRODUCE.

A Rainy Forenoon Checked Trade Somewhat-Prices Steadier. On the wholesale streets it was less act-

ive yesterday than on Tuesday, the dry goods and millinery houses feeling the dullness most. Grocers were busy, and on Commission row it was a good day. The increase in business on Commission row the last few days has given an old-time appearance to South Delaware street. Railroads are also feeling the improvement with the commission merchants. In prices yesterday there were few changes, several articles which have been unsettled in price being more steady. The shipments of potatoes, cabbage and onions are unusually large for March. Especially is there a large sale of seed potatoes. Oranges are becoming scarce. Seed men are having an unusually busy time, the early spring helping their business. Poultry, eggs and butter are all weak at quotations. The local grain market was featureless, attendance on 'Change small and the bidding tame. Track bids ruled as follows: Wheat-No. 2 red, 53c; No. 3 red, 491/2c; rejected, 40@50c; wagon wheat, 53c.

MERCHANTS SMILING

Bradstreet's Finds a Better Demand for Goods All Over.

Wall Street in the Dumps on Account of the Seigniorage Bill and What Will Be Done with It.

NEW YORK, March 22 .- In its review of the state of trade Bradstreet's, March 24, will say: Increased observance of good Friday in business circles helps to check the volume of trade. Notwithstanding there being practically one less business day this week than last, continued springlike weather has further stimulated sales of staples at nearly all larger cities in Eastern, Middle and in some of the Western States, comparatively fewer Southern distributing centers reporting corresponding gains. While Eastern woolen mills cannot meet orders for fancy dress goods, many woolen mills are running on part time, and large stocks of old wool, with new California and Texas clip available within sixty days, depress prices. Print cloths are selling well and Eastern cotton mills are active, although sales continue smaller than the output. A view of the situation is that Boston agents of the Pittsburg iron and seel manufacturers are firmer in their estimates. The demand from Northwestern storekeepers for millinery, clothing and hardware is kept up by continued fair weather and small stocks, results being felt in improvement at Chicago and St. Louis. At the former several one-thousand-ton orders for coke pig iron, 1895 delivery, have been taken, as well as for steel rails at \$25, Chicago; but prices are hardly satisfactory. St. Louis reports that demand for finished iron and steel is improving, but due to cuts in quotations. Among more conspicuous staple products prices have advanced for rice, cotton and Indian corn, increased available supplies being primarily responsible. Coffee and leaf tobacco remain strong at practically unchanged figures and lower ranges of value have been reached by several varieties of iron and steel, by live cattle and live hogs at Western markets, by both raw and refined sugar, by wheat, oats and by mess pork.

Relatively the smallest gains in Western mercantile and industrial circles within the week are at Cleveland, Cincinnati and Toledo. At Louisville staple merchandise and jeans clothing are in good demand, while at Detroit merchandise is moving more freely and industries are better employed. Considerable activity is reported at Kansas City, with country buyers making personal selections. Omaha reports good weather, and good roads have stimulated trade in all lines, notably dry goods, gro-ceries and hardware, while Minneapolis, St. Paul and Duluth agree that while there is more activity in jobbing circles, the volume of general trade remains materially below that of a year ago.

Exports of wheat, flour included, from all ports, both coasts of the United States and Canada, this week (one day short) amount to 2,343,000 bushels, against 3,258,000 bushels last week, 2,766,000 bushels in the same week a year ago, 2,965,000 bushels two years ago and 1,820,000 bushels the same week

The continued shrinkage in total number of business failures each week is another feature of the situation, the total for the past week (one day short) numbering 197, against 231 last week, 202 in the same week a year ago, 191 two years ago and 200 in the third week of March, 1891. Stock speculation at New York has been narrow. the market depending entirely on professional activity, the direction of which has been constantly changing on the uncertainty regarding the President's action on the Bland bill. Prices, however, have held firm and any increase in the short interest causes rallies. London has been inactive in view of the Eastern holidays. Sugar stocks declined in a generally steady market on threatened opposition in the Senate to the protection to refined sugar. Active stocks like Texas Pacific and Northern Pacific preferred have advanced. Silver is dull and depressed to 78%d in London and 6014c in New York. Foreign exchange was slightly weaker on a limited supply of security bills. Demand sterling, \$4.88\\(\alpha \).

A man walked into the Riggs House yesterday and, approaching the cigar stand, called for a perfecto. He ran his hand into his pocket and found no change. He searched every pocket with a like result, and the blood mounted to his forehead. "Wait a minute," he hurriedly exclaimed, as he went toward the wash room. In a minute or so he reappeared and handed a twenty-dollar bill to the clerk, "Charlie" Baker. Receiving his change, the customer departed, and Walter Tappan, of the Homer Lee Banknote Company, who was standing by, requested Baker to let him look at the bill. Taking it, Tappan held it up to the light, and returned it, saying: "I thought so. That fellow carries his money pinned to his clothes somewhere. How do I know? Why, there's a dozen pinholes in that bill. Hundreds of men carry it the same way. I saw an item in a newspaper the other day which shows how the practice is followed. A town bond, of the town of Dehil, N. Y., was turned into the town treasurer for redemption. It was punctured so full of pinholes as to be almost unreadable. As soon as it was determined to be genuine, however, the money was paid and an investigation begun. Then the late owner of the bond finally admitted that he had carried the bond for a long time pinned to his undershirt, and as he had changed that garment quite frequently, the bond had become full

If you keep sneezing and have sensations of chilliness it is a fair sign of coming cold. Sometimes it can be broken quite effectually by a hot lemonade. Get the lemon and sugar ready and set the water boiling. Then bathe the feet in ho. water, or take a hot bath all over. Retire immediately and have brought to you the glass of lemon and sugar over which the boiling water has been poured. Drink it down as hot as possible. You won't have a symptom of cold in the morning.

Price of Wheat at Chicago Made a Small Decline.

The Cold Wave Scare Was Not a Very Potent Influence-Provisions Picking Up Steadily.

CHICAGO, March 22.-In anticipation of to-morrow's holiday and uncertainty regarding the effect of the approaching cold wave, there were more sellers than buyers of wheat, and the price, compared with yesterday's closing, is 4c lower. Corn is le lower and oats unchanged. Provisions were strong, closing prices showing a gain of 10c in pork, .071/2c in lard and .05c in

The opening in wheat was quiet, without change in price since the previous afternoon. The cold wave was moving slowly over the winter wheat belt, and had already spread over Nebraska, Kansas and down into Texas. Its course was still eastward, but the effect of the cold was only sufficient to raise a doubt and make it debatable whether any actual damage to the wheat plant would result from it. The early cables were comfortless and noted no change in the foreign situation. The receipts at Chicago were light. Minneapolis reported 203 cars and Duluth 37, or 240 in all, compared with 349 at the same two places last year. New York reported 20 boatloads in all taken by exporters there yesterday, hesides 175,000 bushels by local millers. Baltimore reported no inquiry from exporters there. Business was more than usually dull, and fluctuations for two hours were confined between 57% and 58% 6584c during the entire forenoon. The clearances from the Atlantic seaboard were liberal. The receipts at the primary Western markets, exclusive of Kansas City, were 281,-380 bushels, against 404,133 bushels a year ago. Closing cables reported rather easier continental markets. Antwerp was quoted 12½ centimes lower; Paris from unchanged to 5c lower for wheat, and from unchanged to 20c lower for flour. There was an increase of activity with prices on a slightly lower plane near the end. May sold at 57%c and closed at 57%@57%c There was very little life in the corn market, and not enough doing to lift or depress values to a greater extent than 4c

or so. Export clearances were small, but there was a good demand for the offerings here at about 4c over yesterday's prices. May started at 37%c, declined to 37%c, rose to 37%c, but, under the influence of the easy feeling in wheat, toward the close the market weakened and left off with sellers of May at 374c. While the slight firmness in corn influ-

enced a similar feeling in oats, business in the latter was far more active. There were liberal offerings and a good demand for shorts. The cash market for oats was very active and firmer. May opened slightly und vesterday's closing price, at 30%@ 30%c, and sold up to 31%c. Toward the close the market declined a shade with wheat and corn. May closed with sellers at 30%@30%c, and 30%c bid. The provision market again developed considerable strength. The firmness was at first the result of the light run of hogs,

but was added to later by the reported

good volume of the cash trade. Closing prices were near the top figures of the day. Compared with last night, May pork s 10c higher, May lard .121/2c higher, and May ribs .05c higher. Estimated receipts for to-morrow are:

1,000 MILES OF TRAVEL

EVERY LETTER,

MR. FRANK G. CARPENTER. one of the most widely and favorably known of newspaper writers, is now on his way to the Far East. He will visit Japan, Korea and China, and the results of his observations will be embodied in a series of letters which will be printed in the

SUNDAY JOURNAL

Mr. Carpenter carries letters from the most prominent men in the United States to American diplomats and consuls, and all that these officials can do to advance his purposes will be done. He also has official letters to the leading officials and cabinet ministers of the countries he will visit, and everything will be thrown open to him. These letters will not be of the guide-book variety. Mr. Carpenter will pay little attention to the seaports at which he may stop; these have all been written of before. He will push on to the interior, and tell of the government, customs and daily life of people of whose peculiarities the Western world knows little. The publication of these lette r will begin in a few weeks, and will continue through the summer and fall. They will appear EXCLU-SIVELY in the

SUNDAY JOURNAL

and WILL NOT BE PRINTED in any other Indiana newspaper.
